<b>ATA 05</b>	<b>Time Limits / Maintenance Checks – Damage Tolerant Airworthiness Limitation Items – ALS Part 2 – Amendment</b>	
<p>Manufacturer(s): Airbus (formerly Airbus Industrie)</p>		
<p>Applicability: A300, A310 and A300-600 aeroplanes, all certified models, all serial numbers.</p>		
Reason:	<p>The airworthiness limitations applicable to the Damage Tolerant Airworthiness Limitation Items (DT ALI) are currently listed in Airbus ALI Documents, which are referenced in the A300, A310 and A300-600 Airworthiness Limitations Section (ALS) Part 2. Airbus has recently revised the ALI Documents, which have been approved by the European Aviation Safety Agency (EASA):</p> <ul style="list-style-type: none"> <li>- AIRBUS A300 ALI Document issue 04,</li> <li>- AIRBUS A310 ALI Document issue 07 and</li> <li>- AIRBUS A300-600 ALI Document issue 12.</li> </ul> <p>The actions contained in these revised documents, which introduce more restrictive maintenance requirements and/or airworthiness limitations, have been identified as mandatory actions for continued airworthiness. EASA issued ADs 2006-0071, 2006-0260 and 2006-0374 to require compliance with the maintenance requirements and associated airworthiness limitations defined in previous issues of these Airbus ALI Documents.</p> <p>For the reason described above, this EASA AD supersedes existing EASA ADs 2006-0071, 2006-0260 and 2006-0374 and requires an update to the approved aircraft maintenance programme and compliance with the maintenance requirements and associated airworthiness limitations defined in the Airbus ALI Documents listed above.</p>
