Regulative Baseline for the Implementation of IFR Operations at Uncontrolled Aerodromes in the Czech Republic / CZCAA IFR Study

1 Introduction

This document provides the regulative baseline for the implementation of IFR operations at uncontrolled aerodromes in the Czech Republic. The regulative baseline is divided into two levels:

1. Local level identifying local regulations, standards and requirements of the Czech Republic that are related to the implementation of IFR operations at uncontrolled aerodromes in the Czech Republic.
2. International level identifying EU legislation, international standards and requirements related to the implementation of IFR operations at uncontrolled aerodromes in the Czech Republic. The international level covers:
 - a. EU legislation in force (e.g. Regulations, Implementing Regulations, Directives, etc.);
 - b. EASA NPAs, Decisions and Opinions;
 - c. ICAO Annexes, Documents, Circulars, Standards and other manuals;
 - d. Other standards, requirements and manuals (e.g. EUROCONTROL, WMO).

Please note: The data in this document was accurate when the document was issued. For later use of the document it has to be investigated whether new versions or new applicable regulations are available. If the result of the investigation is that this document is outdated, the CZCAA shall be informed.
